

American Diabetes Association  
**CAMP CAREFREE**

FOR YOUTH WITH DIABETES IN THE HEART OF NEW ENGLAND

Camp Dates: 7/23-8/5/2017

School Health Office

\_\_\_\_\_ School

Dear Nurse \_\_\_\_\_:

I really appreciate all that you do for my diabetes while I am at school. You help make diabetes much less difficult while I am there.

As you may know, in the summer from late July through early August, I go to a diabetes sleepover camp for two weeks, ADA Camp Carefree. This camp is really fun for campers and staff. It is a magical and life-changing experience!

I was hoping that you would be willing to volunteer some time as part of the camp's medical staff. Even though camp is two weeks, if you could help for one week or even several days, that would be helpful.

You could learn a lot of diabetes from the returning medical staff members. Most of them have been coming to camp for years, and they love to teach other medical people about diabetes care. Campers come to camp on shots and all varieties of pumps, and campers enjoy teaching medical people all about their diabetes, too.

If you think you might want to come and help at camp, check out this website link: [http://www.campcarefreekids.org/n-PW\\_2017/V-N/V-N.asp](http://www.campcarefreekids.org/n-PW_2017/V-N/V-N.asp)

I hope you can come!

Sincerely,

\_\_\_\_\_  
Signed
